

**! 10-GAUSS  
WARNING**

# STRONG MAGNETIC FIELD

## Tools and Equipment

Strong magnetic fields are present that can make magnetic items suddenly fly towards the magnet, which could cause personal injury or serious damage. **Do not take tools, equipment, or personal items containing steel, iron, or other magnetic materials closer to the magnet than this sign.**

## Dewars

The stray field of the magnet can pull a magnetic dewar into the magnet body, causing serious damage. Use only nonmagnetic stainless steel dewars. Do not use iron or steel dewars during servicing.
